Community Garden Volunteer Requests

We are excited to connect you to a network of volunteers from local civic groups, schools, and universities. This form allows you to identify your needs so we can connect them to you. We understand details may be unknown. Please simply provide an estimate of all requested information. To be eligible to receive volunteers, your garden or urban agriculture venture must be a participating member of Green Spaces Alliance's Gardens Network.

We are often able to provide tools and supplies to help complete projects. In the past, we have had herbs, seeds, flowers, and common garden tools available. Please submit your completed request form electronically to zanel@greensatx.org or by mail to our office (address listed above).

Contact Person

1. Name and title:
2. Primary phone number:
3. Email address:

Site Information

1. Garden/location's name:
2. Address:
